Dear Mr. Foord:

I have reviewed your report for 1RP-1665. Please address these concerns:

- 1) What is the direction of groundwater flow for this area? In other words, provide rationale and confirmation for placement of monitoring wells.
- 2) NMOCD requests an additional 2 monitoring wells to the North and West of the excavation limit. These are marked by stars on Figure 5 in the attachment. These can be temporary monitoring wells.
- 3) Provide witness opportunities for NMOCD and SLO.

Thanks,

Olivia Yu  
Environmental Specialist  
NMOCD, District I

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
