**Subject:** RE: Lovington Paddock 96 (RP 1665) Land Rights Question

Scott,

If they are all on Lovington owned surface, then SLO would not have any jurisdiction of the water. I wasn't sure either on where exactly it fell, as SLO owns 4 acres in one quarter and 11 in another. I will defer to your survey of the area on this matter.

Thank you,

**Amber Groves**

**Subject:** Lovington Paddock 96 (RP 1665) Land Rights Question

Amber,

In follow up to our call the other day regarding whether or not any of the proposed monitoring wells at LPU-96 (RP 1665) fell on SLO land, I pulled up the site on the SLO website map and it appears to me the site and surrounding area have **subsurface** rights owned by SLO (all tan), but not surface rights. I believe the surface rights are owned by the City of Lovington. If this is correct, please clarify what that means in regards to the SLO and the installation of additional monitoring wells at the site. If you believe this is not correct....please let me know your thoughts on what our next steps should be.

Take care,  
Scott Foord

Sorry, forget about that sometimes. I am in Louisiana so I am referring to 1-2:45 CST. I believe the call in is currently set up for 1 pm CST.

Jason

Mr. Michelson:

Thank you for your prompt response. Ms. Groves and I can have a conference call today 1-2:45 pm either MST or CST. Please let us know to which time zone you are referring, so we are calling in at the correct time.

Thanks,  
Olivia

**Subject:** [**\*\*EXTERNAL\*\***] Conference call today 2 March 2017 @ 12 pm

Good morning Mr. Foord and Mr. Michelson:

I would like to request a rescheduling of the conference call at noon (MST); 1pm (CST) today to include Ms. Amber Groves from the State Land Office as we will be discussing LPU 96, in which the State of NM owns the minerals and potentially jurisdiction over the surface. Please let us know when you are next available.

Thanks,

Olivia Yu  
Environmental Specialist  
NMOCD, District I

575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
