Subject: RE: 1RP-4883 - Phillips State #001 - Soil Investigation Summary and Proposed Remediation Workplan
Date: Monday, February 19, 2018 4:02:00 PM
Attachments: approved_1RP-4883 - Phillips State #001 - Soil Investigation Summary and Proposed.pdf

Mr. Lowry:

NMOCD approves of the proposed additional delineation for 1RP-4883 with a clarification: each delineation sample location must demonstrate permissible levels of BTEX, TPH extended, and chlorides for two depths: depth obtained and depth maintained at least 3-4 ft. in depth. Please be advised that delineation- while conducting excavation- is considered an at-risk activity.

Like approval from NMSLO required.

Thanks,

Olivia Yu
Environmental Specialist
NMOCD, District I

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Subject: 1RP-4883 - Phillips State #001 - Soil Investigation Summary and Proposed Remediation Workplan

Ms. Yu,

Please find attached the *Soil Investigation Summary and Proposed Remediation Workplan* that has been prepared for COG Operating's Phillips State #001 environmental remediation site. The release site is located in UL "O", Sec. 17, Township 21 South, Range 35 East in Lea County, NM. Upon your review and approval, COG is prepared to begin the activities outlined in the attached *Workplan*.

If you have any questions or need any additional information, please feel free to contact Becky Haskell at 432-818-2372 or myself at 432-466-4450. Thanks.

Joel Lowry
