Mr. Kurtz:

The available information indicates **OPERATOR** has met the requirements of 19.15.29 NMAC and no further corrective action is required. NMOCD considers **1RP-4190** closed. This determination by the Oil Conservation Division does not relieve Operator of responsibility should future information indicate a threat to ground water, surface water, human health, or the environment. Furthermore, it does not relieve Operator of responsibility for compliance with any federal, state, or local laws and/or regulations.

Like approval from NMSLO required.

Thanks,

Olivia Yu

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Mr. Kurtz:

To follow-up, NMOCD requires a final C-141 to fully close 1RP-4190.

Thanks,

Olivia

Good Morning,

NMSLO agrees with NMOCD that all remedial requirements have been met. Please be advised that this location is currently in monitoring. For full site closure, you will need to submit photos to NMSLO depicting that desired vegetation has been achieved. These can be submitted to Mark Naranjo, whom I have copied on this e-mail for your convenience.

Thank you,

Amber Groves

*My last day with NMSLO will be January 11, 2018. All ROE inquiries will need to go to Conrad Kegel at ckegel@slo.state.nm.us. Any release that is over 10 bbls of OIL will need to be reported to Kenda Montoya at kmontoya@slo.state.nm.us. Once my position is filled, you will be notified on who to copy on submittals to NMOCD. It has been a pleasure working with you!
