Attachments: approved_1RP-4149 FINAL Azores Federal #2H Closure Request.pdf

Dear Mr. Hitchcock:

Information acknowledged.

The available information indicates **OPERATOR** has met the requirements of 19.15.29 NMAC and no further corrective action is required. NMOCD considers **1RP-4149** closed. This determination by the Oil Conservation Division does not relieve Operator of responsibility should future information indicate a threat to ground water, surface water, human health, or the environment. Furthermore, it does not relieve Operator of responsibility for compliance with any federal, state, or local laws and/or regulations.

Thanks,

Olivia Yu
Environmental Specialist
NMOCD, District I
Olivia.yu@state.nm.us
575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Ms. Yu,

Yes that is all of the boring data that we were provided by ASI.

Thank you,

Sheldon L. Hitchcock

Mr. Hitchcock:

The attachment does not appear to be a standard soil bore log. Is this the extent of the documentation available for 1RP-4149?

Thanks,
Olivia

**** External email. Use caution. ****

Mr. Reich:

Soil bore logs for 1RP-4149 are still needed for documentation.

Thanks,
Olivia

Mr. Reich:

NMOCD accepts the closure report for 1RP-4149. To complete documentation, please submit soil bore logs for this release and an approved closure report will be sent back.

Thanks,
Olivia
