Good morning Mr. Brunson:

Thank you for the update regarding 1RP-4710. NMOCD requests vertical delineation to 250 mg/kg chlorides. A review of the release indicated that a playa was impacted.

Thanks,

Olivia

**Subject:** Endeavor State NC #001 (1RP-4710) - Update

Olivia,

Endeavor has asked me to send you an update of the release at the State NC #001 (1RP-4710). BBC has conducted sampling at this site and was not successful in fully delineating the site at several sample points utilizing a backhoe. I have attached the results to date. We are scheduled to further delineate this site on Wednesday November 15<sup>th</sup> utilizing different equipment.

I apologize for my lack of communication of the status of this leak. This is my fault and not Endeavor's.

As soon as we achieve delineation, Endeavor will be submitting a workplan for remediation activities.

Thanks, Cliff
