Attachments: approved_deferral_1RP4330_088210-29Yu-Closure Request.pdf

Mr. Bockisch:

Thank you for your prompt response. NMOCD grants closure to remediated areas for 1RP-4330, except for the deferred area adjacent to the polyline. 1RP-4330 will remain until remedial activities occur when the flowline is inactive, abandoned, or retrofit.

Olivia

Subject: RE: 1-RP-4330 Endurance 25 Closure Request

Olivia,

Both areas that are dashed on Figure 2 were excavated to four feet, lined, and backfilled. They were not able to excavate adjacent to the polyline shown on Figure 2 and that area is the only area that would require deferral.

Subject: RE: 1-RP-4330 Endurance 25 Closure Request

Mr. Bockisch:

1RP-4330 also appears to be a deferral request rather than a closure, correct? The 4 sample locations on the western border of the impacted area, adjacent to the main road, are still above 600

mg/kg at 4 ft. bgs. Or was this area remediated?

Which area was lined? Location "C" as indicated is not marked apparently on the figures.

Thanks,
Olivia

Subject: 1-RP-4330 Endurance 25 Closure Request

Olivia,

It appears that the closure request for the Endurance 25 was submitted to yourself and Ms. Shelly Tucker with the BLM on March 3, 2017. I have attached an email with Shelly's approval of the closure request as well as the email with which we sent the request. I have also attached the closure report for your convenience. Please let me know if you have any questions.

Bernie
