Ms. Haskell:

The available information indicates **OPERATOR** has met the requirements of 19.15.29 NMAC and no further corrective action is required. NMOCD considers **1RP-4639** closed. This determination by the Oil Conservation Division does not relieve Operator of responsibility should future information indicate a threat to ground water, surface water, human health, or the environment. Furthermore, it does not relieve Operator of responsibility for compliance with any federal, state, or local laws and/or regulations.

Thanks,

Olivia Yu

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Rebecca,

I will go ahead and accept the closure assuming that the pasture does not need any reseeding. I will let you know if I find any issues upon inspection. Thanks!

Ms. Yu / Ms. Price,

Please find the attached Closure Request Letter for your consideration. This is for a flare fire that impacted the adjacent pasture that occurred on March 2, 2017. The surface is Fee and the minerals are Federal. If you have any questions or concerns please contact me.
