Good morning Ms. Haskell:

The available information indicates **OPERATOR** has met the requirements of 19.15.29 NMAC and no further corrective action is required. NMOCD considers **1RP-4493** closed. This determination by the Oil Conservation Division does not relieve Operator of responsibility should future information indicate a threat to ground water, surface water, human health, or the environment. Furthermore, it does not relieve Operator of responsibility for compliance with any federal, state, or local laws and/or regulations.

Thanks,

Olivia Yu
Environmental Specialist
NMOCD, District I
Olivia.yu@state.nm.us
575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Olivia,

Thank you for approving the closure of this site. I have attached the email that I sent to you on January 4, 2018 with the attached soil boring log that you had requested at that time. Please advise if you are unable to open the attachment.

Thanks, Cliff

Good morning Mr. Brunson:

The closure report for 1RP-4493 is approved. However, soil bore logs are still needed.

Thanks,
Olivia
