Dear Ms. Overbey:

The available information indicates **OPERATOR** has met the requirements of 19.15.29 NMAC and no further corrective action is required. NMOCD considers **1RP-4939** closed. This determination by the Oil Conservation Division does not relieve Operator of responsibility should future information indicate a threat to ground water, surface water, human health, or the environment. Furthermore, it does not relieve Operator of responsibility for compliance with any federal, state, or local laws and/or regulations.

Thanks,

Olivia Yu
Environmental Specialist
NMOCD, District I
Olivia.yu@state.nm.us
575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Olivia,

I believe I have included all of the necessary information in the attached final C-141. Please take a look and let me know if you would like to have any changes made. If not, please accept the attached for final approval and closure of 1RP-4939.

Thank you!

Rachael

Mark-

We have removed the burnt/melted pipe and attach the photographs from the site to provide documentation of that effort. These were taken March 6, 2018.

We will submit the final C-141 for closure.

Best regards,

David

Good morning David,

Ryan Mann from the NMSLO Hobbs office took a look at this yesterday and everything looks good, other than the burnt/melted poly pipe that is still there. That will need to be removed.

Good morning Ms. Coracci:

NMOCD approves of the delineation completed for 1RP-4939. No further remediation is required. Please submit a final C-141 for closure.

Like approval from NMSLO required.

Thanks,
