Subject: RE: Americo's State T Battery
Date: Friday, April 6, 2018 8:47:00 AM

Good morning Mr. Banks:

Thank you for setting up the conference call yesterday, April 5, 2018. In case, the numbers were not conveyed clearly, these are the unresolved 1RPs that may be associated with the Americo State T battery:

1RP-4246 and 1RP-1574: associated with API well 30-025-05233

1RP-2460 and 1RP-2195: associated with API well 30-025-05230

On the proposed delineation report, please clearly state which 1RPs will be addressed. For ones that will not be, please be advised that NMOCD and NMSLO will require an explanation or rationale.

Thanks,

Olivia Yu
Environmental Specialist
NMOCD, District I
Olivia.yu@state.nm.us
575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Mr. Banks:

Neither NMOCD nor NMSLO will be in our respective offices on April 5, 2018. The request is for you to provide the conference line.

Thanks,
Olivia

Mr. Banks:

Is the below phone meeting request confirmed? If so, please provide a teleconference line and code to call in.

Thanks,
Olivia

Good morning Mr. Banks:

Are you available on April 5, 2018 at 2:30 pm MST to discuss 1RP-4246? NMOCD database also indicates multiple unresolved 1RPs that may be associated with this location. Please review them and determine if they can also be addressed under the same delineation plan.

Thanks,
Olivia
