---

Dear Mr. Goates:

Please be advised that NMOCD database indicates that this release occurred on Fee surface and Federal mineral ownership. BLM can verify.

The available information indicates **OPERATOR** has met the requirements of 19.15.29 NMAC and no further corrective action is required. NMOCD considers **1RP-1356** and **1RP-1373** closed. This determination by the Oil Conservation Division does not relieve Operator of responsibility should future information indicate a threat to ground water, surface water, human health, or the environment. Furthermore, it does not relieve Operator of responsibility for compliance with any federal, state, or local laws and/or regulations.

Thanks,

Olivia Yu  
Environmental Specialist  
NMOCD, District I  
[Olivia.yu@state.nm.us](mailto:Olivia.yu@state.nm.us)  
575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

---

**Subject:** RE: ConocoPhillips - Lockhart B-28 #6 - Closure Report 1RP-1356 and 1RP-1373

Dear Ms. Taylor:

Notes:

- Release GPS coordinates on the cover page do not match the release locations indicated on the figures.
- For future reference, if one delineation and/or remediation plan is submitted to cover multiple releases at one location, please demarcate the release points and outline the impacted area for each release to the best of your recollection/internal files.

Based on the data provided, NMOCD will grant closure to 1RP-1356 and 1RP-1373. Please submit final C-141s for the aforementioned releases to complete closure documentation.

Thanks,  
Olivia
