Dear Ms. Johnson:

NMOCD approves of the additional delineation proposed for 1RP-4575, 1RP-4641, and 1RP-4764 with these modifications:

- The tank battery area, identified as Release 2, in the July 2017 report must be included in the additional confirmatory delineation plan as well.
- In the subsequent report, on an appropriately scaled map, please demarcate release points and outline the impacted areas for each of the 3 releases.

Please be advised that these releases occurred on State surface and minerals. Like approval from NMSLO required.

Thanks,  
Olivia
