Mr. Bockisch:

Not a problem. The hand-marked figure is sufficient. Please be advised that a final C-141 is not needed since that are impacted areas encompassed by 1RP-4320 that is deferred until retrofit, abandonment, or inactivity of the high pressure gas line. 1RP-4320 will remain open even though the closure report is accepted.

Please see the attachment for the approved 'closure' report.

Thanks,

Olivia

Olivia,

For some reason, those samples never made it onto the figure. Sorry about that.

Those samples were taken from hydrovac holes that were advanced adjacent to the Enterprise gas line and EOG'S high pressure water line. I've hand-drawn their locations on the map to get the information to you more quickly. Our drafting folks are backed up and it may be a couple of days to get you a drafted figure.

Mr. Bockisch:

Thank you for your prompt response. Deferral is acknowledged for 1RP-4320. I have the approval email from BLM.

Maybe I am not seeing it, but none of the sample ID labels on Figure 3 or other figures include the sample date August 30, 2016.

Olivia

Olivia –

This was a deferral since we could not excavate adjacent to the high pressure lines. See attached emails from Shelley and Tomas. The sample locations and depths for all of the confirmation samples can be found on Figure 3 of the attached assessment summary Report.

**Subject:** RE: 1RP-4320- Closure Request Rpt 088210-28 Red Hills North Unit #106

Good morning Mr. Brandon:

Pardon the delay. Is this actually a deferral rather than a full closure for 1RP-4320? There are still locations adjacent to the high pressure pipeline for Area 1 and Area 3 that exceed 600 mg/kg chlorides. Where and at what depths were the confirmation samples taken on August 30, 2016?

Thanks,

Olivia
