Subject: RE: Closure for Iron Horse State #1 Battery

Ms. Purvis: Thanks for your prompt response.

Mr. Dittrich:

The available information indicates **OPERATOR** has met the requirements of 19.15.29 NMAC and no further corrective action is required. NMOCD considers **1RP-4782** closed. This determination by the Oil Conservation Division does not relieve Operator of responsibility should future information indicate a threat to ground water, surface water, human health, or the environment. Furthermore, it does not relieve Operator of responsibility for compliance with any federal, state, or local laws and/or regulations.

Thanks,

Olivia Yu
Environmental Specialist
NMOCD, District I
Olivia.yu@state.nm.us
575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately

investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Ms. Purvis/Mr. Dittrich:

Thank you for the photos for 1RP-4782. Was a final C-141 previously submitted for this release?
Pardon if I missed it.

Olivia

Subject: Closure for Iron Horse State #1 Battery

Please find attached the final C-141 for a leak that occurred inside the lined battery of the Iron Horse State #1 Battery on 08/06/2017 in Lea County, NM. The liner was inspected and it was discovered that its integrity is maintained as illustrated in the photos below. The RP number for this event is 1RP-4782. Receipt notification and closure approval via email are greatly appreciated.
