BLM concurs with NMOC D approval and stipulations.

NOTE: LPC Timing Stipulations are in effect - from March 1st through June 15th. Please plan remedial activities accordingly. Check for African Rue...treat (before it gets out of control).

If you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

Shelly J Tucker

The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. **In such an event a site does not achieve successful restoration, or future issues with contaminants are encountered, the operator will be asked to address these issues until they are fully mitigated and the location is successfully reclaimed.** In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Subject: RE: ConocoPhillips - MCA Battery 1 - Work Plan

Good morning Mr. Pope:

Please note that the latitude and longitude of the release location on the cover page and on page 1 are incorrect and do not match the figures.

NMOCD approves of the delineation completed for 1RP-4609 and the proposed remediation plan with these conditions:

- Laboratory analyses (TPH extended and chlorides) of confirmation bottoms and sidewalls.
- Marked confirmation sample locations on an appropriately scaled map with GPS coordinates.

Please confirm or inform for clarifications. Like approval from BLM required.

Thanks,

Olivia Yu
