## BLM concurs with NMOCD approval.

**NOTE: LPC Timing Stipulations are in effect - from March 1st through June 15th. Please plan remedial activities accordingly. Check for African Rue...treat (before it gets out of control).**

If you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

*Shelly J Tucker*

The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. **In such an event a site does not achieve successful restoration, or future issues with contaminants are encountered, the operator will be asked to address these issues until they are fully mitigated and the location is successfully reclaimed.** In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Good morning Mr. Wright:

Thank you for your patience. NMOCD approves of the delineation completed and remediation proposed for 1RP-4652 with these clarifications:

1. To complete release characterization, laboratory analysis of soil samples from the lateral extent of the impacted area (4 cardinal directions).
2. Laboratory analyses of stockpiled soil every 50 cubic yards for chlorides.
3. In the remediation report, include a scaled map with a) the area with properly keyed liner outlined; b) release point and confirmation sidewall and bottom sample locations marked with GPS coordinates; and c) areas with differing depths of excavation annotated.

4. Photo documentation of remedial activities, including the emplacement of the liner, requested.

Like approval from BLM required.

Thanks,

Olivia Yu
