---

Tomas, rancher Danny Berry (575-369-5266) showed a leak site to me and I took some pictures. It appears that the poly flow line had a leak, he said he has tried to get Chestnut to clean up but has not had any luck. The pumper had told him that Chestnut had changed name to Texas E & P, but the mailing address is supposed to be the same. I put the pictures on the L drive under Hobbs pictures by inspector Kerry Fortner pics Chestnut-Texas E&P.

Thanks,

Kerry
