Dear Mr. Merchant:

The available information indicates **OPERATOR** has met the requirements of 19.15.29 NMAC and no further corrective action is required. NMOCD considers **1RP-3979** closed. This determination by the Oil Conservation Division does not relieve Operator of responsibility should future information indicate a threat to ground water, surface water, human health, or the environment. Furthermore, it does not relieve Operator of responsibility for compliance with any federal, state, or local laws and/or regulations.

Thanks,

Olivia Yu
Environmental Specialist
NMOCD, District I
Olivia.yu@state.nm.us
575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Thanks for the photos. It appears that most of the sites have had the revegetation recover enough to warrant closure. NMSLO agrees with NMOCD and considers 1RP-3979 closed.

Subject: 1RP-3979 - Devon Leases Illegal Dumping

Mr. Mann,

Larson & Associates, Inc. (LAI), on behalf of Penroc Oil Corporation (Penroc), submits the attached photographs for each individual site (Altbeir 10 State 1H, Dopplebock 8 State Com 1H, Dunkel 7 State 1H and Gualalcanal State Com 1H) for OCD remediation permit 1RP-3979. The photographs were taken on May 1, 2018, and show that the locations are recovering from the illegal dumping and vegetation is being re-established. Penroc requests no action for the illegal dumping releases. Please feel free to contact Mark Larson or myself for any further questions or concerns.

Thanks,

Ashton Thielke
