---

Good morning Mr. Holbrook et al.:

NMOCD agrees that delineation is completed for 1RP-4723. Proposed remediation will be addressed separately.

Thanks,  
Olivia

Nick,

Per my conversation with the Travelers representative this morning, please use the link below to download the revised remediation report for the above captioned location. Figure 3 and Figure 4 were revised to include the location for boring SB-14. I sent a revised text to you on April 13, 2018, that clarified Section 3.0 (Remediation Plan) to include language requesting deferral to completely remediate the well pad until the well is abandoned and reclaimed. I signed the cover for the attached report as the final document. Please forward to OCD and Travels. Please contact me if you have questions.

Mark

Good Morning Olivia –

I spoke with Larson and requested updated graphics to include SB-14. I saw that Nick forwarded the updated report from Larson that included the location for SB-14. I just want to make sure that you understand that we are still pursuing remediation by RXSoil. Best Regards,

John
