Lucas,

PLEASE NOTE: Judah Oil is required to notify the BLM of all releases on Federal surface or involving Federal minerals. CURRENTLY, THIS LOCATION IS IN VIOLATION OF BLM REGULATIONS FOR FAILURE TO REPORT THE RELEASE WITHIN THE TIME CONSTRAINTS SET WITHIN NTL3A.

CAP's will require like approval from both the NMOCD and the BLM before work can begin.

If you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

Shelly J Tucker

The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Good morning Mr. Middleton:

I do not see a submitted initial C-141 in the OCD database and it was not attached to your workplan. I cannot review your workplan unless you resend or submit an initial C-141.

Thanks,
