---

Mr. Lowry/Mr. Johnston:

Thank you for the follow-up. Please note that there is an additional Environmental Specialist in District 1. Please include Christina Hernandez in all subsequent communications and report submittals.

Yes, the concerns originally indicated for 1RP-4817 workplan are still valid. The areas represented by SP-4 and SP-9 will require additional delineation.

Thanks,  
Olivia

**Subject:** 1RP-4817 - Abo SWD 2 - Original Workplan & Associated Correspondence

Ms. Yu,

Please find attached the Original *Workplan* and some associated correspondence regarding Vanguard's Abo SWD environmental remediation site. We anticipate beginning this project relatively soon and I wanted to ensure that the *Workplan* has covered all of the bases and is still sufficient. The only thing that caught my attention, or may have changed, is that the area characterized by sample point SP4 may not require additional delineation.

In the event you still believe additional delineation is necessary, we would be happy to do so. If you have any questions or additional suggestions, please feel free to contact me by phone or email.  
Thanks.

Respectfully,

**Joel Lowry**  
Senior Project Manager
