**Attachments:** approved\_1RP5069\_Marshall Winston Loco Dinero 36 State 2H Proposed Delineation.pdf

---

Mr. Porter:

NMOCD also approves of the proposed delineation plan for 1RP-5069. Please note that USGS has more recent depth to groundwater data in the vicinity of the release location. Estimated depth to groundwater is < 100 ft. bgs (data from 2015 indicates 63 ft. bgs) within a 1000m radius, which alters the permissible delineation and remediation levels.

Also, please remember that each proposed differing depth of excavation must have its own set of confirmation bottom and sidewall samples.

Thanks,

Olivia Yu  
Environmental Specialist  
NMOCD, District I  
[Olivia.yu@state.nm.us](mailto:Olivia.yu@state.nm.us)  
575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

**Subject:** 1RP-5069 Marshall & Winston Loco Dinero 36 State 2H

Good afternoon Olivia,

Please see the attached file which contains the Release Characterization / Delineation Plan for the leak off of Marshall & Winston's Loco Dinero 36 State 2H line. We are seeking your approval so that we may begin delineation procedures.

Thank you!  
Paul Porter
