---

Ms. Taylor:

NMOCD approves of the delineation completed and proposed remediation for 1RP-4608 with these clarifications:

- Confirmation sidewall samples at no greater than 75 ft. apart.
- At least one sidewall/edge sample must be taken at the border between proposed 2 ft. and 3 ft. excavation.
- Provide GPS coordinates for bottom and sidewall sample locations.
- Dated photo documentation of remedial activities.

Like approval from BLM required.

Thanks,

Olivia Yu

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
