Mr. Hitchcock:

Thank you for your prompt response.

The available information indicates **OPERATOR** has met the requirements of 19.15.29 NMAC and no further corrective action is required. NMOCD considers **1RP-4904** closed. This determination by the Oil Conservation Division does not relieve Operator of responsibility should future information indicate a threat to ground water, surface water, human health, or the environment. Furthermore, it does not relieve Operator of responsibility for compliance with any federal, state, or local laws and/or regulations.

Thanks,

Olivia Yu
Environmental Specialist
NMOCD, District I
Olivia.yu@state.nm.us
575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

**** External email. Use caution. ****

Dear Mr. Hitchcock:

NMOCD will grant closure to 1RP-4904. However, please be advised that NMOCD explicitly asked for GPS coordinates of confirmation sample locations due to the area of impact.

Please send a list of the GPS coordinates of the confirmation sample locations and an approved closure report will be sent back.

Thanks,
Olivia

*** Lesser Prairie Chicken (LPC) timing stipulations are in effect 1 Mar- 15 June annually.

*** Tis the season for African Rue. Please do a 360 scan around your well locations
and lease roads.

The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Ms. Yu/Ms. Price,

Please find the attached closure report for the Stealth Federal Com #004H release that occurred on December 23, 2017. Also per Ms. Price's request I measured the impacted area in the pasture and pad areas. The north side pasture was approximately 10,847^{ft²}, the pad was approximately 23,933^{ft²}, and the south pasture was approximately 24,248^{ft²}. Please let me know if you have

any questions or concerns.

Thank you,
