Attachments: approved_1RP4758_Delineation Workplan, Blue Jay Federal #001H.pdf

Mr. Brunson:

NMOCD approves of the delineation completed for 1RP-4758. The proposed remediation is also approved with these conditions:

- Confirmation bottom (SP2 area) and sidewall samples are required. At least one of the sidewall/edge samples is to be at the border between the different depths of excavation for SP1 and SP2 areas.
- Dated photo documentation of the remedial activities, including the proper emplacement of the liner.
- Scaled map with the confirmation sample locations in relation to the delineation sample points.

Thanks,
Olivia

Subject: COG - Blue Jay Federal #001H (1RP-4758) - Delineation Workplan

Olivia and Henryetta,

Please find the attached Delineation Workplan and remediation proposal for the COG Blue Jay Federal #001H (1RP-4758). COG is requesting that you review this plan and is looking forward to the OCD's and BLM's approval.

If you have any questions, please let me know.

Thanks, Cliff

The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.
