---

Mr. Hitchcock:

As this incident requires remediation, a **1RP-5131** is issued. Please see attachment for your records.

<b>5131</b>	7/20/2018	A	COG	MC Federal #14	30-025-38738	17S-32E-21B	11/19/2017
-------------	-----------	---	-----	----------------	--------------	-------------	------------

Please clarify. Were the delineation sample data collected under the liner? In other words, the maximum depth of sample was collected 4 ft. bgs with a geoprobe?

NMOCD would consider a deferral on further remediation after submission of preliminary bottom and sidewall samples of the maximum depth and extent obtainable for the proposed excavation at this facility. Please provide photo documentation of the remedial process.

Thanks,  
Olivia
