---

Good morning Messrs. Foord & Michelson:

Thank you for your patience. NMOCD approves of the proposed additional delineation to complete release characterization for 1RP-3941.

NMOCD database indicates State surface and mineral ownerships. NMSLO can verify. If yes, NMSLO like approval required.

Thanks,

Olivia Yu  
Environmental Specialist  
NMOCD, District I

575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
