Mr. Tippy:

Thank you for your patience and compliance. NMOCD approves of the remediation thus far completed for 1RP-4591. Backfill approval and liner emplacement approved.

Please remember to submit dated photo documentation along with the final C-141 and short remediation/closure summary.

Thanks,

Olivia Yu
Environmental Specialist
NMOCD, District I
Olivia.yu@state.nm.us

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Good Morning,

Per the request of Joe Tippy of JR Oil Co., I have attached a copy of the updated remediation plan/sample test results requested at your meeting with him on June 29th. Please don't hesitate to call/email me if you have any questions or need anything further.
