If a Watercourse was Impacted, Describe Fully.* N/A		

RECEIVED

By Olivia Yu at 12:37 pm, Aug 21, 2018

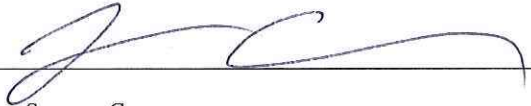

Describe Cause of Problem and Remedial Action Taken.*

Response and cleanup efforts are still underway. An investigation will be performed after the spill response is complete. Information will be provided in the subsequent report.

Describe Area Affected and Cleanup Action Taken.*

Soil and rock within the tank impoundment area at the facility. The estimated total surface area of impacted soil is approximately 1800 sq ft. Currently the depth of impact to soil based on excavation activities is approximately 17 inches. Soil and rock are being excavated for analysis and disposal. Once impacted material around the tanks has been removed clean fill will be brought in to replace the excavated material.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: Crude Oil Release
Date: Wednesday, August 15, 2018 10:06:26 AM

Just received a call from Spencer (918-977-4317) with Phillips 66 giving immediate notification of a crude oil leak at their Jal Truck Station located approximately 9 ½ miles North of Jal on State 18 and ½ mile West. Volume is 40-50 bbls, possible source is a leaking from bottom of tank or lower connections. Oil is in bermed containment. Vacuum truck is in route, tank has been isolated. Will follow up when more details available.
