Subject: RE: Goodnight Midstream Former DCP Pump Station Historical Release 1RP-5091 Backfill Request
Date: Wednesday, August 29, 2018 8:27:00 AM
Attachments: approved_1RP5091_8.28.18 backfill request.pdf

Good morning Mr. Leking:

Thank you for the dedicated excavation of the impacted soil. NMOCD grants backfill approval for 1RP-5091.

Like approval from NMSLO required. NMSLO may have additional concerns or stipulations.

Please be advised that a new C-141 form in accordance with the revised NMAC 19.15.29 is in effect since August 24, 2018. <http://www.emnrd.state.nm.us/OCD/forms.html>

All future site/release characterization reports must be accompanied by this form. Older versions will not be accepted. For 1RP-5091, as remedial work was approved and underway in advance of the effective date of the new Release regulation on August 14, 2018, the final C-141 form (ver. 2017) may be used when the closure report is submitted.

Thanks,

Olivia Yu
Environmental Specialist
NMOCD, District I

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
