Mr. Brunson,

Understood. Thank you for your quick response and attention. Please update maps/figures in future submissions pertaining to 1RP-5105.

Thanks,

Christina Hernandez

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Christina,

The 7/23/18 samples were sampled at different locations than the 7/11/18 samples. The 7/23 samples were just a bit further out since the 7/11 sample results were above limits. I apologize that I didn't make that clear in the plan submittal.

I hope that answers your question.

Thanks, Cliff

**Subject:** RE: COG Harrier 35 Fed Com 1H (1RP-5105) - Delineation Workplan

Dear Mr. Brunson:

## Question

Given that there are two lab analyses provided for West@Surface and South@Surface (7/11/2018 and 7/23/2018), were the samples used for the 7/23/2018 lab analyses the same samples used for 7/11/2018 lab analyses or were they resampled at different locations?

NMOCD approves the proposed remediation for **1RP-5105**. Approval is also conditional based on the following:

1. Sidewall confirmation samples from all delineation sample locations, at no greater than 50 ft. intervals.
2. BTEX, TPH extended, and chlorides laboratory analyses for all confirmation samples.
3. Marked confirmation sample locations in relation to delineation sample locations on a scaled map.
4. Dated photo documentation of the remediation process.

Thanks,

Christina Hernandez

Olivia and Shelly,

Please find the attached Delineation Workplan and remediation proposal for the COG Harrier 35 Fed Com 1H (1RP-5105). COG is requesting that you review this plan and is looking forward to the OCD's and BLM's approval.

If you have any questions, please let me know.

Thanks, Cliff
