Subject: RE: (Closure Letter) Gunner 16 State SWD #001 (30-025-40890) 9-15-2017 (1RP-4812)

Good morning Mr. Hitchcock:

Thank you for the laboratory analyses.

The available information indicates **OPERATOR** has met the requirements of 19.15.29 NMAC and no further corrective action is required. NMOCD considers **1RP-4812** closed. However, this determination by the Oil Conservation Division does not relieve Operator of responsibility should future information indicate a threat to ground water, surface water, human health, or the environment. Furthermore, it does not relieve Operator of responsibility for compliance with any federal, state, or local laws and/or regulations.

Like approval from NMSLO required.

Thanks,

Olivia Yu
Environmental Specialist
NMOCD, District I
Olivia.yu@state.nm.us
575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Good Morning Ms. Yu,

It looks like there was some sort of error compiling my lab data appendix due to file size. It will not allow me to attach the entire file so I have attached the analytical reports as a reduced size separate PDF here. I will be happy to drop by a complete revised report if that makes things easier for you. Let me know if you have any other issues.

Thank you,

Sheldon L. Hitchcock

**** External email. Use caution. ****

Good morning Mr. Hitchcock:

Were the confirmation samples, taken in May 2018 to verify impacted soil was excavated, submitted for laboratory analyses? The closure report for 1RP-4812 does not seem to have these lab results.

Thanks,
Olivia
