Good morning Ms. Hodges:

Please indicated specifically which information was updated. The cover page of the closure report for 1RP-3619 has the same date as the denied closure report reviewed on March 30, 2018. A skim of the report, submitted on June 5, 2018, suggests that the concerns mentioned for previously denied closure report were not addressed.

Please remember to include NMSLO in all communications and report submittals.

Thanks,
Olivia

Subject: Sunray State Tank Battery Closure Report 1RP-3619

Hello Ms. Yu,

I have attached the revised Closure Report for the Cross Border Resources Sunray State Tank Battery 1RP-3619. I have also included the Revegetation and Noxious Weed Management Plan, along with a letter to Ryan Mann NMSLO explaining the information regarding the reveg process. Please let me know what other information needs to be included that will allow the closure of this project.

Thank You

Tara Hodges
