Subject: RE: 1RP-5154 - WTX to EMSU Release Work Plan
Date: Monday, September 10, 2018 11:18:00 AM
Attachments: approved_1RP-5154 -Soil Delineation Work Plan.pdf

Mr. Foord:

NMOCD approves of the proposed delineation plan for 1RP-5154 with several points for clarification:

- Provide relevant chloride data to complete site assessment.
- All laboratory analyses must have corresponding field data. For depths not submitted for laboratory analyses, NMOCD requests field data to complete release plume documentation.

Approval from BLM required. BLM may have additional concerns and stipulations.

Thanks,

Olivia Yu
Environmental Specialist
NMOCD, District I

575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
