---

Dear Mr. Settle:

NMOCD approves the delineation workplan for 1RP-3732 with these conditions:

- 1) An additional sample point is needed north of the tanks within the release area.
- 2) Provide a scaled digital map with release point, dimensions of release, and sample locations demarcated.
- 3) Sidewall and bottom confirmation samples for BTEX, TPH, and chlorides.
- 4) SLO-approved revegetation plan.

Please confirm.

Thanks,

Olivia Yu

Environmental Specialist

NMOCD, District I

[Olivia.yu@state.nm.us](mailto:Olivia.yu@state.nm.us)

575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
