Latitude 32.21515 Longitude -103.72276 NAD83

### NATURE OF RELEASE

Type of Release: Produced Water	Volume of Release: 5 bbls pw	Volume Recovered: 4 bbls pw
Source of Release: Flowline/Pipeline	Date and Hour of Occurrence: 10-10-2017 4:00 pm	Date and Hour of Discovery: 10-10-2017 4:00 pm
Was Immediate Notice Given? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom?	
By Whom?	Date and Hour:	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.\*

**APPROVED**

**By Olivia Yu at 3:17 pm, Sep 14, 2018**

Describe Cause of Problem and Remedial Action Taken.\*

☐ The release occurred when a hole developed in the flowline. The damaged portion of the flowline has been removed and replaced.

Describe Area Affected and Cleanup Action Taken.\*

The release occurred alongside the lease road in the pasture. The line was isolated until repaired.

**Remediation activities were conducted in accordance with applicable NMOCD and BLM Guidelines. Impacted soil affected above the NMOCD Recommended Remediation Action Levels was excavated and transported to and NMOCD-approved disposal facility. Laboratory analytical results from excavation confirmation soil samples and associated delineation soil samples indicated BTEX, TPH and chloride concentrations were below the NMOCD RRAL. Upon collecting the required excavation confirmation soil samples, the excavated area was backfilled with locally sourced, non-impacted material. Please reference the Remediation Summary and Soil Closure Request, dated April 2018, for additional details regarding remediation activities.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
