Was Immediate Notice Given?															
By Whom?  Was a Watercourse Reached?  If Yes No  If a Watercourse was Impacted, Describe Fully.* N/A  Describe Cause of Problem and Remedial Action Taken.*  Estimated spill volume of ten barrels coming from area around the wellhead and flowline. Cause was a roustabout crew that had been working on the pumping unit and failed to open the flowline when work was completed. Well has been shut in.  Describe Area Affected and Cleanup Action Taken.*  Immediate actions taken at time of incident and remedial action outlined in closure report submitted to NMOCD.  Thereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
