The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Dear Ms. Alderman:

Please be advised that this release flowed into a USGS-identified waterway.

The 1RP for this incident is

4857	11/1/2017	A	Cimarex	Red Hills Unit #3	30-025-28144	26S-33E-5K	10/29/2017
-------------	-----------	---	---------	-------------------	--------------	------------	------------

Please note that a release characterization/delineation workplan as detailed in the attachment must be approved by NMOCD BEFORE any remediation work.

Thanks,

Olivia Yu
Environmental Specialist

All,

Yesterday we discovered an illegal dumping had occurred at the above location. I have included a map to show the location and area of the release. It is unknown who did this. We have sampled the impact to see exactly what was released, and will develop a work plan as appropriate. Please see attached C-141 as well.

Please let me know if you have any questions.

Respectfully,

Christine Alderman
