1RP5200_C141 Spill Report_Part 1 of 4 Signed.pdf

Mr. Boyd:

Notes:

- Thank you for the photos. Please date and geo-reference the photo documentation, in order to provide verification that the release has been contained.
- Include NMSLO in all communications and report submittals as this release occurred on State surface and mineral ownerships.

Please be advised that

1. The initial portion of the C-141 form does not include the calculations to determine the release volume. Visual estimation is not sufficient nor adequate. Please submit measurements in volume estimation; including dimensions, soil parameters (porosity, texture, bulk density, etc).
2. Per 19.15.29.13 NMAC, regulations of corresponding agencies supersede NMOCD's.

The IRP for this incident is

5200	9/24/2018	A	Ameredev	Azalea Central tank battery	30-025-44104	26S-36E-28D	9/1/2018
-------------	-----------	---	----------	-----------------------------	--------------	-------------	----------

Please remember to include this IRP identifier to all communications. Revised NMAC 19.15.29 was effective on August 14, 2018. Delineate and remediate per regulation. Mind the timelines for submittal of requisite information.

NMOCD will review the submitted information for an alternative remediation plan. Please keep in mind that complete site characterization and horizontal & vertical delineation of the release area must be completed in order for any approval towards closure, regardless of the remedial activity proposed.

Thanks,

Olivia Yu
Environmental Specialist
NMOCD, District I
Olivia.yu@state.nm.us
575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Subject: Ameredev // Azalea State Com 111H

Olivia,

Please see the attached C141 Part 1 of 4 as discussed, we will begin testing soil and I will soon have the "Site Assessment/Characterization", "Remediation Plan", and Closure.

Thanks,
