OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Subject: Energy Transfer MA-4 Pipeline Gas Release C-141 9/10/2018

Christina and Olivia,

Please find appended to this email the C-141 for a gas release that occurred on Energy Transfer's MA-4 Pipeline on September 10, 2018. I am still waiting on photos from operations, but I have appended calculations to this form. If you have any questions or require additional information in the meantime, please do not hesitate to ask. I hope you both have a nice weekend.

Warm Regards,

Carolyn J. Blackaller
