Good morning Mr. Tavarez:

Yes. Please resubmit a scaled map with the bottom confirmation samples annotated to distinguish from the sidewall sample locations.

Thanks,
Olivia

Subject: FW: EOG - Beowulf 33 State Com, Closure Report -1RP # 4745

Sorry Olivia. The bottom hole samples did not make it on the Figure. The bottom hole samples were in the vicinity of the trenches, south bottom (T-3), center bottom (T-2) and north bottom (T-1). Let me know if you need the bottom hole samples on the Figure, thanks

Mr. Tavarez:

Please address this concern regarding the closure report for 1RP-4745:

- Where was the center bottom confirmation sample for the area represented by T1 to T3 taken?

Thanks,
Olivia

Olivia and Amber,

Here is the closure report for the EOG - Beowulf 33 State Com 601H located Lea County, New Mexico. The closure report details the sampling and remediation activities performed at the site. Let me know if you need additional information or call me if you have any questions, thanks
