Subject: RE: Galaxy to Hearn's initial C141
Date: Tuesday, October 16, 2018 11:45:00 AM
Attachments: 1RP5236_Galaxy to Hearn's C141.pdf

Mr. Hohensee:

Please note that as the lay flat line is associated with EOG Galaxy Recycling Facility & Containment (1RF-25), this release 1RF-5236 will be noted under the aforementioned facility as well as under 1RF-32 for EOG Hearn's Recycling Facility & Containment.

Please be advised that

1. Per 19.15.29.13 NMAC, regulations of corresponding agencies supersede NMOCD's.
2. Dated, geo-referenced photo documentation for verification that the initial response activities have been employed to contain the release is requested.

The 1RP for this incident is

5236	10/16/2018	A	EOG	Galaxy to Hearn's lay flat line	1RF-25	24S-33E-27D	9/29/2018
-------------	------------	---	-----	---------------------------------	--------	-------------	-----------

Please remember to include this 1RP identifier to all communications. Delineate and remediate per regulation. Mind the timelines for submittal of requisite information.

Please be advised that NMOCD recommends a completed site characterization/delineation report be reviewed or approved by NMOCD BEFORE any significant remediation work towards closure.

Thanks,

Olivia Yu
Environmental Specialist
NMOCD, District I
Olivia.yu@state.nm.us
575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
