Ms. Yu,

For clarification, the hole was in the bottom of the #4 tank. Yes there is a liner underneath the tanks. Please let me know if you have any other questions.

Thank you,

Good morning Ms. Haskell:

Several questions for clarification: Where was the hole on the oil tank? Is there a liner underneath the tanks?

Photo documentation of the area around the affected tank, as well as the location of the hole on the tank is required. A liner integrity statement for verification of the lined facility also is required.

The 1RP for this incident is

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
