Subject: RE: 1RP-4667 - Jaguar 18 State #002H - Remediation Summary and Closure Report

Good morning Ms. Haskell:

The available information indicates **OPERATOR** has met the requirements of 19.15.29 NMAC and no further corrective action is required. NMOCD considers **1RP-4667** closed. However, this determination by the Oil Conservation Division does not relieve Operator of responsibility should future information indicate a threat to ground water, surface water, human health, or the environment. Furthermore, it does not relieve Operator of responsibility for compliance with any federal, state, or local laws and/or regulations.

NMSLO approval required.

Thanks,

Olivia Yu
Environmental Specialist
NMOCD, District I
Olivia.yu@state.nm.us
575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water,

human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Subject: 1RP-4667 - Jaguar 18 State #002H - Remediation Summary and Closure Report

Ms. Yu,

Please find attached the *Remediation Summary and Soil Closure Report* along with a final C-141 that has been prepared for COG's Jaguar 18 State #002H. The Site is located in Unit Letter "N", Sec. 18, Township 23 South, Range 33 East, in Lea County, New Mexico on land administered by the New Mexico State Land Office. If you have any questions or need any additional information, please feel free to contact me by phone or email. Thanks.

Respectfully,

Joel Lowry
Senior Project Manager
