OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Jamie and Shelly,

Please find the enclosed Work Plan for the above reference spill site located in Lea County, New Mexico. The spill has been assessed and the remedial recommendations are included in the work plan. Once approved, COG will schedule the soil remediation and notify you prior to implementing the work plan. Please let me know if you need additional information or call me if you have any questions, thanks
