OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

I am checking on the approval status of a work plan that was submitted 10/11/2016 for the Willie BNW State #3. If NMOCD/NMSLO is not going to approve the work plan, we need to know so that we can move forward with other options to get this site addressed. I have re-attached the work plan for your convenience.

Thank you,
Amber
