NMOCD approves the work plan for 1RP-4080. Please submit pre- and post- cleanup photos taken in the same location as image files (ex: jpeg, jpg, tiff) when the remediation report for closure is submitted.

Thanks,
Olivia

I have corrected and attached the correct analysis results from Cardinal Laboratories to the Bell Lake Work Plan. I apologize for the mistake.
Bell Lake and Bilbrey in the same day got me.

Thank You

Dear Rebecca:

Please provide BTEX and TPH lab results from Cardinal Laboratories. Analytical chloride data do not match the tabulated data. Please amend the remediation plan.

You are correct. I accidentally attached the Bilbrey Photo Page on the first page. I apologize. I have corrected the photos and I have attached the correct Work Plan to this email.

Thank You

Rebecca,

I just caught that the photos you attached to your work plan, are not photos from the Bell Lake 24 Federal 1H. I think the second page of pics may be from the Bell Lake. Would you please send me the correct pics. Thanks!!

If you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Hello!

I have attached, per Bob Allen (SESI), the Work Plan for the Devon Bell Lake 24 Federal 1H. Please review and let us know if you have any questions.

Thank You
