Ms. Haskell:

The available information indicates **OPERATOR** has met the requirements of 19.15.29 NMAC and no further corrective action is required. NMOCD considers **1RP-4788** closed. However, this determination by the Oil Conservation Division does not relieve Operator of responsibility should future information indicate a threat to ground water, surface water, human health, or the environment. Furthermore, it does not relieve Operator of responsibility for compliance with any federal, state, or local laws and/or regulations.

Thanks,

Olivia Yu

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Good morning Ms. Haskell:

Thank you. Your thoroughness is sincerely appreciated. In the Friday rush, I did not even realize that information was missing.

FYI, the revised C-141 for 1RP-4788 will be noted, but an annotated copy will not be sent back to you.

Have a relaxing weekend,
Olivia

Ms. Yu,

Please find the attached revised C-141, I realized that I filled out the notification portion out incorrectly (If Yes, to Whom?).

**** External email. Use caution. ****

Dear Ms. Haskell:

This fire flare has been issued a 1RP-4788. The final C-141 will not be accepted until NMOCD receives laboratory analyses of 1-2 discrete soil samples taken from the impacted pasture.
