ApprovalLetterC147\_OxyRedTank.pdf

---

Mr. Allen:

NMOCD approval is given for the proposed Oxy Red Tank Recycling Facility and 3 Recycling Containments. Please be advised that this email message serves as documentation for approval. A hard copy will not be sent. Please see the attachments for your records: 1) the letter of approval indicating the specific variance approved and 2) signed C-147 application with the permit numbers issued for the Oxy Red Tank Recycling Containments. These documents are also uploaded online to NMOCD Imaging site.

The 3 Oxy Red Tank Recycling Containments are issued identifiers **1RF-433** to **1RF-435**, respectively from West to East. Monthly usage reports on the form C-148 are expected electronically to NMOCD-District I office and NMOCD- Santa Fe. NMOCD also may ask for periodic updates on containment conditions and inspection logs. For future communications, please remember to include the 1RF identifiers for tracking and record-keeping purposes.

Thanks,

Olivia Yu  
Environmental Specialist  
NMOCD, District I

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
